

Park Brow Primary School

Happy - Respect - Pride - Caring - Potential

Celebration Newsletter

19th March 2021

Dear Parents/Carers,

Next week we should have been having our Spring term Parent Review Day, however given the current circumstances, these meetings have been rescheduled for Summer term. These will be phone consultations with your child's class teacher. Further information about these will follow.

Can we please remind all parents that pupil's should wear a plain black tracksuit on top of their PE kit for PE after Easter. Please do not send your child in in football kits, brightly coloured tracksuits or leggings on their PE day.

School breaks up for Easter on Friday 26th March at the following times:

Years RMc, 1, 4 and 6: 1:45pm

Years RC, 2, 3 and 5: 2pm

Have a lovely weekend, and stay safe.

Science Week

This week the pupils have enjoyed lots of experiments and investigations during our school Science Week.

Year 6 had lots of fun exploring the digestive system. They created their own digestive systems before exploring how the system works.

Year 4 have been exploring the affects that different liquids have on our teeth. This was done using an egg and a variety of liquids. The children will explore the results next week.

Come Dine with Park Brow

UKS2 have been busy in class preparing and cooking a range of dishes this week. Stuffed peppers, spaghetti bolognese pizzas and fruit salads were some of the dishes that were produced. Once cooked, the pupils enjoyed sampling their final products.

Year 2 have been learning about the different foods groups in preparation for designing and making their own delicious savoury wraps.

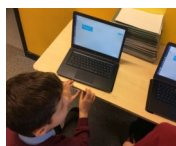

Attendance

This week's whole school attendance is 94%.

Last week, our attendance was 96%. Please ensure your child continues to attend school as we have planned an extensive catch up curriculum for all pupils.

Computing

Years 5 and 3 have been lucky enough to use our brand new Chrome Books this week. The pupils had the opportunity to log in to the Chrome Books using their school email addresses and were taught how to use some of the basic skills from the Computing curriculum, including the basic key functions, saving and retrieving work and inserting pictures to a word document.
